

Name: Sara Hallam

Company: Logos Preparatory Academy

Job Title: Teacher

Fun Fact about you:

I am an Adult Nurse Practitioner turned Homeschooling Mom turned High School Anatomy and Physiology Teacher.

What's been your favorite Women's Initiative moment?

I love the Women Who Rock event! We had a Women's Initiative table last year, and I had the best time!

What keeps you giving to United Way?

It is not ok with me that 47% of the population in Greater Houston that are struggling with poverty are single-parent females. I cannot stand by and do nothing. United Way's 211 Texas United Way HELPLINE and Integrated Client Journey work to get these women and their families back on their feet and stay there.

What event could you medal in, if it were an Olympic sport?

Creating a warm space. I love making my home a welcoming place for my family to come home to. Events would include: Turning on warm lights at the time of night that I refer to as "lamp-thirty", candle lighting, pillow fluffing, background music selection, and something yummy smelling being made in the kitchen. It sounds silly, but it makes a difference in helping everyone unwind from our very busy schedules and creates a good atmosphere so that we can catch up with each other about our day.
